

4 IN 1 SMARTPHONE HOLDER

SMARTPHONE HOLDER, POWERBANK, LIGHTING AND ELECTRONIC BELL

This smartphone handlebar holder is the complete accessory that will meet all your expectations : keep your smartphone within reach, do not fear the battery failure and signal yourself to motorists around you. The holder is compatible with all smartphones up to 6.3 inches. It has an internal 4000 mAh battery, which allows you to charge your smartphone while using it. The holder has 3 LEDs of 250 Lumens on its front face, which provides optimal light of the road and makes you visible to all people around you, up to 200 meters. Finally, you can also signal yourself with the electronic bell. The remote control is attached to the holder via a cable and easily fixed to the handlebars. The powerful 130dB sound ensures your safety. With 13 hours of battery life, this support will become your essential companion during all your bike or e-scooter trips. Water resistant, you will not be able to do without it, whatever the weather conditions and the time of day.

A complete accessory : signal yourself and keep your smartphone within reach
