19-inch server cabinets Pro

roline®
Designed for Professionals

The server cabinets in the ROLINE Pro series have been specially developed for convenient and flexible network cabling. Each cabinet consists of a robust steel construction with a material thickness of up to 2.0 mm. The door hinge can also be changed. The entire construction can be dismantled, meaning that the cabinets can be completely removed if required.

Characteristics:
- Load capacity: 1000 kg
- Front & rear doors made of 70% perforated steel
- Front door in perforated or glass area with outward curvature
- Front door with 4-point locking and rear door (double-leaf) with 3-point locking
- Side panels are lockable and removable
- 4 levelling feet, lockable castors
- Base with slide-on cable inlet
- Roof with cut-out for fan modules, incl. perforated cover
- Colour: Light grey, RAL 7035 or Jet black, RAL 9005
- IP protection class: IP20
- Mounted: Yes

19-inch server cabinets Pro
